

### **Building a Future-Ready Bank**

🖆 11 September 2025 🙎 Shangri-La, Dubai

**EVENT PARTNERS** 

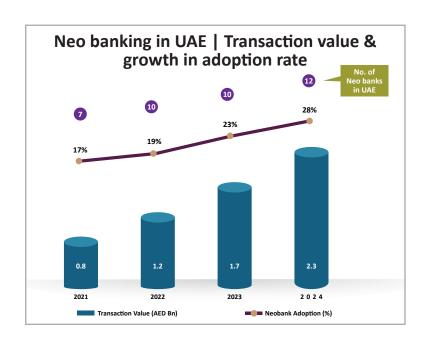

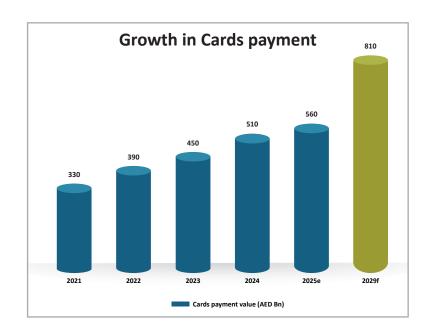

#### RISE IN DIGITAL AND NEOBANK ADOPTION

The UAE neo banking sector is witnessing rapid growth, with transaction value reaching AED 2.3 Bn in 2024, driven by a 24% year-over-year increase from 2023. This surge is fueled by changing demographics, growing confidence in secure transactions, and a tech-savvy population. Neobank adoption rose from 17% in 2021 to 28% in 2024, and is expected to exceed 40% by 2027, placing the UAE at the forefront of regional digital banking. Digital-first banks like Zand and YAP reshape the market with innovative services and strategic partnerships. Traditional banks are also digitizing rapidly, deploying digital arms like Liv., Mashreq Neo, and E20. Digital safeguards and regulatory frameworks ensure security without compromising innovation, effectively balancing risk and progress.

#### **UAE ACCELERATES SHIFT TO CASHLESS PAYMENTS**

The UAE's cards payment market is projected to grow 10.6% in 2025, reaching AED 560 Bn, following a 13.3% surge in 2024. Cash transactions in the UAE have declined over the past four years, with rising card usage reflecting a structural shift driven by consumer preference for digital transactions. Government-led initiatives like the Financial Infrastructure Transformation (FIT) Program and Dubai's Cashless Strategy, which targets 90% cashless transactions by 2026, are expanding POS and mobile POS infrastructure, especially for SMEs. Innovations in AI and contactless payments are reshaping consumer behavior, while platforms like Aani enable instant and seamless transactions. The Central Bank's Digital Dirham initiative marks the next phase of digital currency evolution, reinforcing the UAE's commitment to a future-ready payment ecosystem.
